

Feeling bad about printing!

Here at RTLegal we strive to help the environment as best as we can through minimising our negative impacts on the environment. On Sunday 28 July we partook in National Tree Day by planting trees at Fairfield Park as a way of giving back to help mother nature.

As you know Lawyers are known for using lots of paper and in some instances, the preparation of client briefs to barristers can amount to hundreds of sheets of paper.

Paper comes from trees; the more paper consumed the more trees need to be felled for processing. If more trees are felled than replaced then it can lead to a detrimental impact on the environment as trees mostly absorb carbon dioxide which in turn helps in sustaining a healthy balance of clean air in our atmosphere.

Feeling good about giving!

A healthy earth helps maintain a healthy population. However, some parts of the earth are populated by underprivileged people. In order to ameliorate this situation staff from RTLegal shall be attending a fundraising dinner¹ on Thursday 29th August 2019 put on by the Australian Collaboration Cambodia Association.

RTLegal will play our part by donating (1) mutual wills and (2) general power of attorney each up to the value of \$1,100 as part of the fundraising activities on the night. For more information about how you can contribute and/or participate see footnote below.

¹ At Narai Thai Restaurant, Cnr Grimshaw Street and Plenty Roads, Bundoora. Tickets \$75. Banquet dinner, BYO wine or buy drinks at the restaurant. Fantastic raffle items. 100% of all funds raised go to the poor of Cambodia (education and health projects). Enquiries or help booking email Caroline Bui: cbui2011@gmx.com or book on Trybooking url: <https://www.trybooking.com/BEACW> or search on Trybooking.

The main purposes of the Association are to support the youth of Cambodia through amongst other things;

- (1) Providing improved educational opportunities for children and young people in poor Cambodian communities,
- (2) Promoting and encouraging good health and hygiene practices in rural Cambodian communities,
- (3) Mentoring Cambodian youth to assist them to develop to their fullest potential.
